

Plant Health Alternatives, LLC

Alternative Health Care for Trees and All Plants

Founded in 2002 with a global mission to

- (1) foster respect for trees and plants as life forms,
- (2) accomplish changes in tree and plant care practices by coming from the plant's point of view and
- (3) discover insights and take actions that lead to major cultural and environmental impacts for tree and plant health.

OUR VISION:

Provide a new kind of professional service to people with trees in decline or sick plants, crops, forests, parks:

- **Holistic systems that fix stressed trees and plants from the inside-out, coming from the plant's point of view...no products. Green Centrics™ Co-Existence Technologies™**

Offer learning experiences and opportunities:

- **A life-changing experience of connection with all of Nature.**
- **New-science systems and technologies anyone can learn. Green Centrics™**
- **Opportunity to become a professional Green Centrics™ practitioner.**

An innovative solution to global warming:

- **Reverse negative effects of climate changes on forests, trees and plants: trees that are healthy from the inside-out mean hope for a cooler planet.**

Initiate philanthropic and "planetarian" works:

- **The Foundation for Holistic Plant Care raises public awareness that trees and plants are alive—life forms worthy of respect.**
- **The Foundation also offers scholarships, provides informational materials and produces the world-wide Conference for Co-operation with Nature.**

THE BENEFITS:

For People: happy with professionalism of service

- **Saved time, money, work, worry. Trees not cut down so valuable landscape remains intact—protecting your investment. Complementary to all kinds of tree care.**
- **Older trees look better, live longer. Beautiful scenery!**
- **Satisfaction • Personal well-being • Legacy • Inspiration • New attitudes, skills & more...**

For Trees: healthy from the inside-out!

- **Saved! Stress, decline, injury, shock are reversed—becomes healthy, grows more robust.**
- **Naturally resists diseases & insects. • Unharmed by invasive techniques or chemicals.**
- **Can reach its full potential; older trees look better, live longer.**

For the Planet: cooler, less carbon, more oxygen.
