

CLASSES, SPECIAL OFFERINGS and TRAININGS

INTRODUCTION

The Introduction may either be called "Tree Whispering" or "Green Centrics." It is typically offered in 1 to 2 hours.

TREE WHISPERING™ Experience

1/2 day of class. Typically, it is offered on a Saturday morning.

This class is for people who want to expand their experience of connection with trees and Nature. They are also introduced to the concepts behind this alternative health care system for trees and plants: "coming from the tree's point and view" and "inside-out not outside-in".

TREE WHISPERING™ Class with the TREE AMBASSADOR™ Certificate:

One evening and one full day of class. Typically, a Friday evening and all day Saturday.

This class is for people who want to expand their experience of connection with trees and Nature and are people who care about tree health. Students learn what "new sciences" and metaphysical insights underpin the work. They learn how to help their own trees from the inside-out with some of the basic, easy and simple techniques that come from Green Centrics™, our professional system.

The Tree Ambassador™ Certificate affirms people's respect for and commitment to caring for trees as living beings. It shows that people can speak with trees...so that they can speak for trees.

TREE WHISPERING™ at the OMEGA INSTITUTE:

This special offering is typically given on a June weekend. At this beautiful resort-like location, we create unique courses for tree lovers and landscape professionals alike. We use this setting to expand on the metaphysical insights of this work. It's also an opportunity to get extra time with the founders and teachers: Dr. Jim and Basia. Please see the course flier for details.

GREEN CENTRICS™ DO-IT-YOURSELF CLASS:

This is a one day class. The series—Introduction, Tree Whispering Class and Green Centrics Do-It-Yourself—would typically run on a Friday evening, all day Saturday and Sunday until about 4pm.

This class provides solid skills to help people's own trees. We cover the new science background and metaphysical understandings of the Green Centrics™ system. Plenty of practice time in class. This class is for people who want to take more Green Centrics™ "tools" home to make a difference in the health of their own trees and plants.

Pre-Requisite: Tree Whispering™ Class with Ambassador Certificate.

GREEN CENTRICS™ "PRACTITIONER" TRAINING:

This is a one-day training for either serious gardeners, avid tree-lovers or landscape professionals who want to have more skills for establishing or maintaining tree and plant health in this holistic, alternative way. This class augments the basic skills already learned, provides practice time and expands the number of "tools" at people's disposal. The class offers a more profound experience of connection with Nature, too.

Graduates will be able to test for proficiency in order to use the Green Centrics™ "Practitioner" name and display the appropriate "Practitioner" logo.

Graduates may also receive additional training and certification in order to teach the Tree Whispering Experience 1/2 day class.

Application and Agreements required.

Pre-Requisite: Green Centrics™ Do-It-Yourself Class

GREEN CENTRICS™ PROFESSIONAL TRAINING:

This is a 5 day training, typically offered from Wednesday through Sunday. This training is for people who are serious about working with the health of trees and plants and/or who may be interested in becoming professional practitioners. In this class, we go beyond the Green Centrics™ "tools." Since the student will have already had experience using the system via the pre-requisites, we are now able to teach the "raison d'etre" of the philosophy and the formation of the methodology.

Graduates will be able to test for proficiency in order to use the Green Centrics™ "Professional Practitioner" name and display the appropriate "Professional Practitioner" logo.

Application and Agreements required.

Call with questions:

Basia at 201-745-5494 or Dr. Jim at 201-650-1231.

Pre-Requisite: Either Green Centrics™ Do-It-Yourself —or— Green Centrics "Practitioner" training.

PHA PROFESSIONAL APPRENTICESHIP and Business Opportunity:

This opportunity is offered after the Green Centrics™ Professional training to individuals who are dedicated tree/plant lovers or landscape professionals and/or who are beginning to work as professional practitioners.

Application and Agreements required.

Call with questions:

Basia at 201-745-5494 or Dr. Jim at 201-650-1231.
